Trent Fireplaces would like to thank everyone at Bradmore Garden Centre for their help in supplying and styling many of the room sets within this brochure. Bradmore Garden Centre Nottingham 0115 984 7990 [www.bradmoregardencentre.co.uk](http://www.bradmoregardencentre.co.uk)

Love the style but can't find the colour? We make all of our surrounds in a wide range of colours and will even match anything you can supply as reference.

## larger

At Trent Fireplaces you really can have the fireplace of your choice. Whether you want it making a little larger for bigger rooms or if you just want to make a grand statement, you really have nothing holding you back.

## smaller

The choice goes on. You find the design you love but it just won't fit? That's no longer a problem at Trent Fireplaces you really can have the fireplace of your choice, we will make the surround fit whatever space you have.

The perfect proportion is easily maintained. We make your choice of surround fit your home like a glove.

# dimensions

H = the depth of the top

All dimensions quoted are approximate. Each fire surround is manufactured individually and therefore may be subject to a slight variation in size.

**REBATE.** The rebate is the gap left on the inside of the surround where the marble may be fitted. All of Trent Fireplaces Fire Surrounds have an adjustable rebate as standard. With the rebate strip fitted there is a 1" (25mm) rebate. If the rebate strip is unscrewed and removed there is a larger rebate as stated. Special/different sized rebates are available on all of the Trent Fireplaces Fire Surrounds upon request.

**SUITES.** All of the suites featured in this brochure are designed to be supplied and fitted with the range of electric fires shown and as such will fit on to a flat wall.

**PLEASE NOTE.** Due to the nature of many of the materials we use such as wood, a variation in shade and pattern is usual. Many of the surrounds featured in this brochure are manufactured using M.D.F. veneered with wood, while others are manufactured from solid timber. Many of the motifs are manufactured from resin. Many items featured are individually hand made and therefore slight variations in size are to be expected.

With regard to tiles, shading and crazing are inherent characteristics of glazed and ceramic tiles and should not be seen as a fault. With regard to cast iron and brass products due to the casting process all sizes quoted are approximate. Polished cast iron and brass products are not recommended for solid fuel fires as some discoloration may occur. Occasionally this process of discoloration, which does not affect the serviceability of the product, may also occur with high output gas fires, therefore if discoloration will cause distress it is strongly recommended that black products be selected. All materials featured are reproduced as accurately as possible to the original products within the constraints of the photographic and printing processes.

We recommend the installation of all products by a professional fireplace installer and cannot be held responsible for any damage arising from incorrect or unqualified installation. Trent Fireplaces have taken great care in the preparation of the information contained in this brochure, but accept no liability for any loss or damage arising directly or indirectly from the use of, or reliance upon, any such information (except for liability for negligence resulting in personal injury which if proven is not excluded) Nothing in this brochure shall amount to any express or implied representation, warranty or other assurance. Trent Fireplaces reserve the right to change the description and specification of its Fire Surrounds and other products without prior notification. Consumer rights are not affected.
